

Virginia Highlands Community College is proud to offer Take 10, a series of 10-week general education courses that begin on September 30 and continue through the end of Fall Semester 2015. Each of these courses cover the same material as those offered in the semester-long format but are compressed to fit within the shorter time period. These courses are a perfect choice for those who weren't quite ready to get started when the regular semester began in August or for students who decide to add a course after the regular semester has begun. And since they end at the same time as all other Fall Semester classes, they're a good choice for those who plan to finish thier coursework before the year ends.

Regular tuition rates apply. For additional information about these courses, please contact the VHCC Student Services Center at (276) 739-2438.

Fall Semester 2015

TAKE 10

10-week classes begin September 30

10-week courses for Fall Semester 2015
