

VHCC Resources for Academic Success

- **Moose Academic Resource Center (MARC)**

Free academic mentoring! This is another way to ensure academic success for all students. Mentoring is most often requested in math, biology, chemistry, ITE, and English, but VHCC also offers help in many other subjects upon request. To qualify for this free service, students must be enrolled in a course on campus, online, or through the Dual Enrollment Program.

Julianna Jones, MARC Coordinator • jjones1@vhcc.edu

- **Single Stop**

Single Stop works with students to determine the benefits they might qualify for from the government, community, and VHCC. Students are then connected with a coach to support and guide them through applying and receiving benefits.

Becky Kell, Connections Coach • rkell@vhcc.edu

- **Career Services**

Career Services at Virginia Highlands serves as a gateway, and or perhaps, a hub for success – a place where everything comes together. We guide students in career counseling, helping students discover their passions and areas of interest so that they are able to successfully choose an educational path that will lead to a thriving career. We work with faculty members to coordinate hands-on classroom experiences and tours with the area industry. And, we work with corporate and industrial partners to facilitate student internship opportunities.

Michael McBride, Dean of Enrollment and Student Services • mmcbride@vhcc.edu

- **Academic Advising**

At VHCC, we are committed to providing our students with an advising experience that will strengthen the relationship between the student and the VHCC community. Effective advising will enable students to achieve their educational and career goals.

- **Library**

The primary mission of the VHCC Library and Instructional Support Division is to support the teaching, learning, and research needs of the VHCC community.
